

Moran Receives "Tax Fighter Award" for Commitment to Lower Taxes

Moran Earns "A" Grade for 111th Congress

WASHINGTON, D.C. - Congressman Jerry Moran received the "Tax Fighter Award" today from the National Tax Limitation Committee (NTLC). Moran received an "A" grade, for his strong support of lower tax rates, reduced government spending and limited government during the 111th Congress.

"To put people back to work, Congress must lower the tax and regulatory burden so businesses can grow and create jobs. Unless Congress acts before the end of the year, taxes will increase for all Americans, many of whom run small businesses and employ American workers. This tax hike will only further damage our economy," said Moran. "I am honored to receive this award and will continue to fight against tax increases and for less government spending to get our economy back on track."

NTLC President Lewis K. Uhler presented the award to Moran in Washington, D.C., saying "Jerry Moran has led the battle on behalf of taxpayers to stop the passage of ObamaCare and cap-and-trade legislation, to make the 2001 and 2003 tax cuts permanent, to eliminate the death tax, to kill the Alternative Minimum Tax, to provide incentives for private savings, investment and job creation and to control the growth of federal spending." Uhler went on to say that "Moran has been a major asset to taxpayers across America during his congressional service. Jerry Moran has had the courage to challenge the orthodoxy of Washington spending and earmarks."

Earlier this year, Moran introduced bipartisan legislation, HR 4779, the Small Business Jobs and Tax Relief Act, to deliver targeted tax relief to American small businesses. Moran has also repeatedly called upon the House Ways and Means Committee to schedule hearings on tax reform, in order to reduce the growing tax burdens on families and businesses.

NTLC has been scoring Congress for over 25 years, the longest continuous score card of any grass roots tax fighting organization in the country.
